January 3, 2011

SUBJECT: Manufacturer Certification, MIL-STD-790 Product Assurance Program, MIL-PRF-6106
and MIL-PRF-83726, FSC 5945; Preparing Activity: DLA-CC

Mr. Alain Le BOUCHER
REL
A Company of STPI Group
22 rue des Chaises
45140 St Jean de la Rulle
France

Dear Mr. BOUCHER:

The REL facilities in St Jean de la Rulle France were audited September 13 and 14, 2010 for compliance with the requirements of MIL-PRF-6106, MIL-PRF-83726 and MIL-STD-790. Based on this audit and acceptance of the corrective actions submitted, an acceptable level of confidence has been established that the compliance with the requirements has been successfully demonstrated; therefore, REL, A Company of STPI is considered a certified manufacturer eligible to manufacture electro-mechanical relay products.

A MIL-STD 790 certificate for your facility is enclosed with this letter. This certification is valid until withdrawn by the qualifying activity. If warranted, this certification may be withdrawn by this Center at any time.

During the certification period, your facility is subject to periodic reaudits. In addition, a drop-in audit in accordance with the requirements of MIL-STD-790 may be performed.

The results of the DLA Land and Maritime audit held on September 13 and 14, 2010 were found by examining a sampling of the manufacturer's normal manufacturing, testing and processing procedures. The acceptance of the corrective actions from the above referenced audit does not relieve the manufacturer of its contract obligation to deliver product that complies with all specifications requirements.

If there are any questions concerning this letter or the enclosed certificate, please contact Mr. Art Woolum, 614-692-0505.

Sincerely,

JOSEPH GEMPERLINE
Chief
Sourcing and Qualifications Division
